

Dear Guests,

We understand that you want to experience new wines at reasonable prices.

Our philosophy of offering wines slightly above our cost is designed to recognize your interest in a good value. Sometimes, the fill level of wine may drop during storage; at other times, wines are purchased in a lot, with different levels. Where we feel that the fill level is less than ideal, we have discounted those bottles. By the same token, for old vintages, the source is very important and we pay substantial premiums for a good source. You may therefore see different prices for the same wine.

For your dining pleasure, we have assembled over the years, an important wine collection exceeding around 390 labels from the major wine regions of the world.

While we update our wine prices from time to time for wines that are fast moving and difficult to source, we rarely update prices on wines we have a substantial stock of. If you look carefully, you will find some great values in this wine list.

For your ease of reference, we have added the ratings from Wine Advocate (WA) and its founder Mr. Robert Parker (RP), Wine Spectator (WS), Stephen Tanzer (ST), Michael Broadbent (MB) and Allen Meadow's Burghound (AM) whenever they are available. Each wine critique has his personal preferences and they may not be yours. In addition, the same critique may use different standards to judge expensive as opposed to moderately priced wines, or wines from different regions. Last but not least, rare and limited production wines are often unrated because the critique did not get a chance to taste them, not because they were not worth writing about. In the end, we recommend that you trust your own experience and use the ratings only as a reference.

We wish you as much fun hunting through this wine list, as we had putting it together.
